

Dear Sir/Madam,

The global pandemic of Coronavirus, and the concerns of people traveling and gathering indoors at large events, has hit the National Conference organized by Dayananda Sagar University (School of Basic and Applied Sciences & College of Pharmaceutical Sciences) in association with The Society for Plant Research (VEGETOS). Based on the WHO guidelines and instructions from Karnataka government, we are **postponing the conference indefinitely**. We will intimate you once the next date of the conference is finalized. Sorry for the inconveniences caused, if any.

The abstracts submitted already will be considered. Hope to see you all during the conference.

Thank you and Regards

Organizing secretary
